Register for #Cables20 on 24 November 2020 – Virtual event

Content:

Attend #Cables20 on 24 November for a full day of high-level insights from cable experts and interactive technical workshops with the whole subsea cable supply chain.

#Cables20 is organised by RenewableUK and Subsea UK and hosted on NetworkTables. To take full advantage of this interactive platform we encourage you to [register early](#) and log in to the event so you can sign up to your favourite [conference sessions](#) and book a seat at one of the workshop tables. Numbers on tables are limited so reserve a seat early to avoid disappointment.

Join in and ...

- Network with **100+ subsea cables professionals**
- Arrange 1-2-1 meetings with **ORE Catapult, LOC Renewables, Marlinks, Global Offshore, Waves Group, Flowline Specialists, JDR Cables, Boskalis and RenewableUK**
- Get an exclusive update on the **Offshore Network Transmission Review** from **BEIS** and **National Grid ESO**
- Pose questions to an established asset owner **Balfour Beatty Investments**, with a whole life cycle perspective on subsea cable ownership and operation
- Learn more about key cable failure trends and insurance considerations from our expert panel featuring **Aon, Waves Group, LOC Renewables** and **Lloyd Warwick**
- Deep dive into the investment perspective with **Santander Corporate & Investment Banking** and **Transmission Investment**
- And finally, choose from seven technical problem-solving roundtables covering a wide range of topics including:
 - Cable Design, Test and Manufacturing (66kv and beyond)
 - Protecting
 - Monitoring
 - Cable Handling, Transportation, and Installation
 - Cable Maintenance and Repair
 - Contracts
 - Cable Installation Risks

[Register today](#) to enjoy all this and more at #Cables20 on 24 November.
